## GREAT STORM REPORTED AT GALVESTON.

### Railroad Bridge Damaged

And Rumors of Other Dire Disasters  
Were Flying Thick  
and Fast.

There was a severe storm at Galveston beginning shortly before noon today and during the afternoon many wild rumors of the great disasters were being circulated, but the wires were all down and it was impossible to have them confirmed or denied.

It was reported on what is believed to be reliable authority that the railroad bridge going from the main land over to the city, was badly damaged. The report states that a vessel was blown through the bridge and some three spans knocked out. This report seems to be reliable.

It was also reported that Bettisons fishing pier, some of the bath houses, and some of the new hotels along the beach had been destroyed. This report could not be confirmed, but it is in all probability true in part at least. The wind was very high, a velocity of 65 miles an hour being registered at 1 o'clock.

Some water ran over the sea wall into the city, but reports vary as to

the amount, while the latest report received from the station at the end of the bridge on the main land side at 2 o'clock, stated that at 2:45 there was seven feet of water over the western part of the city.

Another report also stated that a large vessel was blown onto the main land on this side the bay. That however, may have been the same vessel that was blown through the bridge.

The rain was very heavy and quite a storm at Houston with some damage.

There are quite a number of Bryan people in Galveston and considerable uneasiness was felt during the afternoon by relatives for their safety. The uneasiness was greater on account of all wires being down and it not being possible to get any authentic reports from the distressed city.

The latest report at 3:30 stated that the storm had spent its fury and the worst was over. A statement of the damages however, cannot be secured until the wires are in working order.

### STATE HEALTH OFFICER RETURNS FROM CUBA

Dr. Brumby is Highly Gratified at Health Conditions Found in Island.

Special to the Eagle.  
Austin, Texas, July 21.—State Health Officer Brumby reached here yesterday after an absence of three weeks spent in Cuba, where he had a conference with Dr. John Guiteras, a member of the Cuban sanitary commission, and representatives from Louisiana, Mexico and Central America.

As a result of this conference Dr. Brumby says that ultimately the quarantine restrictions will be practically removed.

He said sanitary conditions of Vera Cruz, Meridia and Yucatan were much better than the average Texas city and representatives from these places assert that it is a travesty on sanitation to maintain the quarantine longer.

"This means," Dr. Brumby says, "that Texas, especially South Texas, will have to clean up and enforce mosquito ordinances. The quarantine against Havana has been entirely removed, as no fever exists there."

Full line of cotton calculators, gin books, marking ink, and brushes. Haswell's Book Store.

### AUTOMOBILE FINDS MORE VICTIMS

Wife of High Santa Fe Official and Her Mother Injured and May Die.

Special to the Eagle.  
San Diego, Cal., July 21.—Seven persons were injured when a railroad motor car struck an automobile in which they were riding.

Mrs. I. L. Hibbard, wife of the general superintendent of the Santa Fe lines, and her mother, Mrs. Eleanor Hudson, who were in the automobile, may die of their injuries.

#### CITIZENS AFTER CHAFFEUR.

He Abandoned Girl Who Had Both Her Legs Crushed.

Special to the Eagle.  
Chicago, July 21.—To have been run over and have both legs crushed by a speeding automobile, lifted into the car by the chaffeur, who promised a crowd of angry citizens to take his victim to her home, and then to be abandoned on a lonely roadside, was the experience of Miss Hulda Solwedel yesterday, a 16-year-old school girl of Hammond.

As a result of her injuries and subsequent treatment at the hands of the chaffeur, the girl's condition is so serious that her physicians say she may die. The Hammond and Chicago police are searching for the chaffeur.

### TREASURY DEPARTMENT OFFICE OF COMPTROLLER OF THE CURRENCY.

Washington, June 25th, 1909.

WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that "THE CITY NATIONAL BANK OF BRYAN," in the City of Bryan, in the County of Brazos and State of Texas, has complied with all the provisions of the "Act of Congress to enable National Banking Associations to extend their corporate existence and for other purposes," approved July 12th, 1902.

NOW THEREFORE, I, Lawrence O. Murray, Comptroller of the Currency, do hereby certify that "The City National Bank of Bryan" in the City of Bryan, in the County of Brazos and State of Texas, is authorized to have succession for the period specified in its amended articles of association, namely until close of business on June 25th, 1929.

IN TESTIMONY whereof witness my hand and Seal of office this Twenty-fifth day of June, 1909.

LAWRENCE O. MURRAY,  
Comptroller of the Currency.

## SPAIN ABOUT TO BE PLUNGED INTO WAR

Moors Are Giving Much Trouble and the Situation is Serious.—Some Hard Fighting.

Special to the Eagle.

Madrid, July 21.—King Alfonso and Premier Maura are returning in haste to the capital from San Sebastian in connection with the sending of reinforcements to Melilla, where heavy fighting has been going on between the Moors and Spaniards.

The Spanish government is exercising the strictest censorship over telegrams from Melilla and also over outgoing press dispatches relating to the situation in Morocco.

on the Spanish forces here last Saturday afternoon was executed under cover of a feint on the front against the Spanish flank. The Moors displayed great courage and skillful tactics.

They rushed in in small squads and many tribesmen succeeded in getting through the barbed wire entrenchment where they fell at the mouth of cannon, after a hard to hand fighting.

It was three o'clock Sunday morning when the Moors finally retired. The Moors numbered 6000, while the French and Spanish forces were composed of 2000 men.
